It has come to my attention that there is confraternism in Peru Illinois among other things.

Reasons for why:

1. Animal Symbolism- being installed all over the town and next towns over in the LaSalle County vicinity. They are dog oriented. About 3 doggie spa/ salons and a dog bathing center have been installed next to the county seat court house in Ottawa IL and my house in Peru, LaSalle County, Illinois.
2. There is a long-standing history of abuse from authorities locally. There have been allegations of rape from them which go uninvestigated and money laundering where police are offering city people money for sex acts with severely underage children.
3. Recently I have been V2Ked with electronic harassment devices what were told to me by the person doing it, (Zach Savitch), he was employed/hired by the city locally to carry out attacks on whoever they want. I have felt victimized ever since I moved here which is approximately 5 years ago now. My kidney hurts every day. I remember talking to this gentleman (Zach Savitch) on the telephone on day not too long ago through facebook messenger call capabilities. He asked me if I worked with the devil. I said no and asked him why. He responded that he thinks he works for the chief of police and my attorney who I last had representing me in a civil trial, namely Eric Miskell.

All hell broke loose after DCFS inappropriately took my kid and Eric Miskell was hired to represent me in the matter.

Zach and another local, Steve Cullinan, whose worm works for DCFS, allege they were hired to kill me by politicians locally. Zach is the worst one.

He attacks me with this V2K thingy every day and I' ve just about had it up to here. It is no life for one to live being V2Ked by a local illegally.

I believe he has no right to be allowed to operate the V2K (electronic harassment) machine because he is suffering mental delusions and suicidal/homicidal ideation. He told me on the phone that day we talked that there was a spirit possessing his body. He described it as a monster at large size. He described in detail that it took over his body slowly during a 7 day time span.

I remember Zach telling me that this "Thing" killed him, got rid of his soul, completely took over his body and that he hasn't been the same since. He mentioned that it was asking him what he wanted over those seven days and that he kept responding he wanted "it all." and inclined that it began saying that as it took over his body, but now only the sound of his voice was the monster or whatever that thing was he claimed that took over his body.

He expressed some Skull and Cross ties. He tells of going to New York around the age of 18 where he claimed people were murdered and he returned different. His mom looks like she works for the F.B.I. but I'm not exactly sure what she does. Zach claims he works for Q territory killing babies as a mass murder on Facebook and Social media.

I'm extremely concerned about his mental health and have been for a long time. If you can please help me to have a proper search warrant conducted on his person to alleviate the threat of harm to me and other's I would greatly appreciate it.
